

## BRONX

The Bronx series exemplifies lighting with an international radiance. The Pieter Adam logo, circular interconnecting links, returns frequently within these series. These rings are very recognizable and give this series its own identity.

Inspiration for this series was found in refined traditional workmanship on the one hand and the dynamic development of the new era on the other resulting in an unpretentious design employing geometrical patterns and clean lines.

The Bronx style resembles the Art Deco looks. In the late 19th and early 20th century, the Art Deco workmanship was highly valued and appreciated. Also for this series, a lot of patience and expertise is demanded from our bronze founders. A laborious process, recurring in for example the separate moulding of each ring, which is subsequently melted onto the connecting piece. Polished, silver/gold plated and varnished, each piece is made with the utmost attention to perfection.
