

Mid-century aesthetics.

Otto x Otto is a lighting product inspired by mid-century aesthetics. This versatile lamp is composed by eight flawless glass squares which are each 1 cm thick. The shapes created by playing with these small glass components make this piece a playful yet very elegant piece. There are several configurations available with this design, including a table lamp, and a beautiful grand chandelier. The modern and well-proportioned look of otto x otto has fascinated many clients during the past decade, making it one of our best sellers. Dimensions vary according to configuration.
