

COSMOSPORA

Design by Maria Grazia Rosin

Handblown luxury pendant light.

Cosmospora is an unique pendant light. An accent piece for quirky, playful yet luxurious homes or hospitality spaces. Each piece is handblown individually forming an agglomerate of organic glass shapes. Each glass element is attached to a movable metal pipe, which can be played around with in order to create the desired shape. A hands-on product which never ceases to amuse. Diameter 70cm or 200cm.
