

7065

Design by de Majo Heritage

True-to-itself Venetian chandelier.

7065 is perhaps the most true-to-itself Venetian chandelier. A strong heritage is passed onto this piece, which, in a nutshell, features a number of traditional Venetian glass working techniques. Highly ornate pastorals and multicoloured floral elements represent a celebration of traditional glassware, while maintaining a sophisticated look. The number of customisable details on this piece is hard to describe, and has to be seen to be understood. A surprisingly compact accent piece for a luxurious and timeless interior. Several configurations available, including a wall lamp version. Diameter 70cm, 75cm, 80cm or 90cm.
