

8001

Design by Francesco Dei Rossi

Mid-century luxury aesthetic.

8001 is an elegant, timeless chandelier. Its simplicity makes it extremely versatile, while its shape recalls a traditional Venetian standard. A great choice for a mid-century style interior, as this piece recalls authentic heritage traits. The stock version comes in glossy white finish with 24K gold leaf, which confers a somewhat antiqued finish, while shimmering. Highly customisable, 8001 comes in several different configurations, including wall lamp versions. Diameter spans from 80cm to 130cm.
