

FRAME AND GAME OF LIGHT

FRAME collection

[En] → **Signs and drawings made of light.** The linear LED light-source is the soul of this range: quality of light, minimal size and modularity. The extruded aluminium profile which contains the light-source is both a decorative and a structural element. The light is filtered by an opal PMMA profile that illuminates the underside of the fixture, giving the impression that the light beam is levitating. The different lengths of profile and the flexibility of the joining blocks make this range modular and easy to personalize.

Segni e di-segni di luce

[It] → La sorgente luminosa lineare a LED, è l'anima della collezione: qualità della luce, ingombro minimo e modulare. Il profilo estruso in alluminio, in cui alloggia il LED, diventa sia elemento decorativo che strutturale. La luce che viene filtrata dal profilo in PMMA ne illumina la parte inferiore satinata, dando l'illusione che la fascia luminosa sia sospesa e galleggi nel vuoto. Le diverse dimensioni dei profili, e la flessibilità degli incastri, rendono l'oggetto modulare e personalizzabile.

Lichtzeichen und Lichtzeichnungen

[De] → Die lineare LED Lichtquelle ist die Seele der Kollektion: Lichtqualität, geringere und modulare Stellfläche. Das Aluminium-Strangpressprofil, in dem sich das LED befindet, wirkt dekorativ und auch als Strukturelement. Das Licht, das durch das Profil der PMMA gefiltert wird, beleuchtet die matte Unterseite, sodass wir die Täuschung haben, dass das helle Band im Leeren hängt und schwebt. Die verschiedenen Größen der Profile und die Flexibilität der Gelenke bilden das Objekt als modular und anpassbar.

Знаки и анти -знаки света

[Ru] → Идея коллекции в линейном светодиодном источнике, его небольших размерах и модульности. Алюминиевый профиль, на котором находятся светодиоды, становится декоративно-структурным элементом. Свет, который поступает через профиль из полиметилметакрилата, освещает нижнюю матовую часть, и создается впечатление, что светящаяся полоса как бы парит в воздухе. Различные размеры профилей и возможность их совмещения делают эту модель универсальной для модулирования по персональным запросам.

علامات ورسومات مصنوعة من.
الضوء

[Ar] → المصادر LED الخطىء هو روح هذا النطاق: نوعية الضوء، والحجم الأذنى والنمطية. الألومنيوم المقاوم الذي يحتوي على مصدر للضوء قد يكون على حد سواء كل من الديكور والعنصر الهيكلي. يتم تصفيية الضوء من خلال أوبال "بـ م م" الذي يضيء الجانب السفلي من الجهاز، وأعطاء الانطباع بأن شعاع ضوء والارتفاع أطوال مختلفة. يجعل هذا النطاق سهلة للتخصيص.

[En] → The flexibility of FRAME is possible thanks to carved solid aluminium fixing elements, available as end caps, double joints for lines, and corners. To get the Compo Mix 30x180, as per photo, you need six corner elements and two end caps, which allow both to hang the composition and to fix the extruded aluminium profiles.

[it] → La flessibilità di FRAME è possibile grazie all'elemento di fissaggio in alluminio ricavato dal pieno, disponibile nelle versioni singolo, doppio o angolare. Per ottenere Compo Mix 30x180, in foto, sono necessari sei elementi angolari e due singoli, i quali permettono la sospensione della composizione e il fissaggio dei profili estrusi in alluminio.
