ENG 50s inspired collection of elegant and sophisticated lamps representing the detail to enrich any location. A double-sided spherical bright object in borosilicate glass makes these lamps available in different compositions and a structure made by metal coated with epoxy powder enriched with brushed brass or black chrome details. Different varieties are available for any situation: chandeliers (in different models) or table lamp, bedside (smaller), floor or wall (available in three different models for single or composite personalized installation). The chandeliers can be customized by combining the various types together in order to create new unique dimensions for each environment. Richness and sobriety all in one single element.
