

OUTLIER

_technical data

Una lampada creata da una sfera di luce e un'asta unite in una composizione sbilanciata che definisce così il concetto di Outlier: un'entità che si differenzia dal resto del gruppo. Un'anomalia nella normalità.

Un'anomalia che crea unicità, un'unicità che crea ricercatezza e che dona all'ambiente quell'eccezione che attrae e che dà fascino.

Une lampe créée d'une sphère de lumière et d'une tige unique dans une composition déséquilibrée qui définit ainsi le concept d'Outlier: une entité singulière qui peut se démarquer du reste du groupe « Comme une anomalie dans la normalité ».

Anomalie qui crée l'unicité, une unicité qui crée du raffinement et qui donne à l'environnement cette exception qui attire et donne du charme.

Outlier contraste grandement avec les propositions habituellement imaginées.

A lamp created by a sphere of light and a rod united in an unbalanced composition that thus defines the concept of Outlier: an entity that differs from the rest of the group. An anomaly in normality.

An anomaly that creates uniqueness, a uniqueness that creates refinement and that gives the environment that exception that attracts and gives charm.

Una lámpara creada por una esfera de luz y una varilla unidas en una composición desequilibrada que define así el concepto de Outlier: una entidad que se diferencia del resto del grupo. Una anomalía en la normalidad.

Una anomalía que crea singularidad, una singularidad que crea refinamiento y que da al ambiente esa excepción que atrae y da encanto.

Eine Lampe, die aus einer Lichtkugel und einem Stab besteht, die in einer unausgewogenen Komposition vereint sind und so das Konzept von Outlier definieren: eine Einheit, die sich vom Rest der Gruppe unterscheidet. Eine Anomalie in der Normalität.

Eine Anomalie, die Einzigartigkeit schafft, eine Einzigartigkeit, die Raffinesse schafft und der Umgebung diese Ausnahme verleiht, die anzieht und Charme verleiht.

Лампа, созданная из светящейся сферы и стержня, объединенных в композицию с изменяемым балансом. Это и определяет концепцию Outlier: сущность, которая отличается от остальной группы. Аномалия в норме.

Аномалия, которая создает уникальность, уникальность, которая создает утонченность и придает окружающей среде ту исключительность, которая привлекает и придает очарование.
