

Jacco  
maris

## framed suspension up-down

The Framed collection, designed by Jacco Maris, is a collection of basic geometric shapes made of hot rolled steel profiles. The lighting system is integrated in the steel frame. The light lines displayed by this design emphasize the interior architecture in an unique way. They create a light spectacle against wall, ceiling, floor or table. The robust steel frame gives this collection a high functionality and multiple possibilities in terms of shape and scale.
